Corporate catalog

Brands, manufacturing, sourcing and distribution

The image shows the cover of a corporate catalog for Lior Cosmetics. The background is divided into three vertical color bands: red on the left, teal in the center, and orange on the right. At the top center, the Lior Cosmetics logo is displayed within a circular frame. Below the logo, the title "CATÁLOGO DE PRODUCTOS" is written in large, bold, white capital letters. In the foreground, three product bottles are shown: a red spray bottle on the left, a dark blue bottle labeled "PROTECTOR TÉRMICO CAPILAR" in the center, and a white bottle labeled "ÂRNICA EXTRACTO" on the right. The bottom of the catalog cover features a light green bar with contact information. On the left is an email icon and the address "ventas@liorcosmetics.com". In the center are icons for Instagram, TikTok, and Facebook, followed by the brand name "Lior Cosmetics". On the right is a globe icon and the website "www.liorcosmetics.com". At the very bottom, the company's legal name and identification number are listed: "LIOR COSMETICS, C.A. J- 31084990-0".

An integrated industrial and commercial group

From product development to final delivery

Grupo Bosto brings together consumer brands, cosmetics and personal care manufacturing, plastic packaging, international sourcing and distribution. This integration coordinates supply, production, storage and delivery through one operating platform.

Connected capabilities

01

Sourcing

BJR Trading imports raw materials and supplies.

02

Manufacturing

Fábrica Lior produces cosmetics and personal care products.

03

Packaging

BOPA manufactures plastic bottles, jars and closures.

04

Distribution

Interexpress stores, prepares and dispatches orders.

Raw material imports

BJR Trading manages international purchases of raw materials and supplies for the group companies.

It connects overseas suppliers with production planning and supports availability for commercial cycles.

From warehouse to destination

Interexpress receives, stores, prepares and dispatches the group products.

The operation includes three warehouses and a 15-truck fleet for urban and intercity distribution.

Process improvements support preparation of up to 30,000 units per day and truck loading in approximately four hours.

Production for our brands and third parties

The plant manufactures cosmetics, personal care, hair care and body relief products.

Capabilities include preparation, filling, sealing, labeling and product development for third parties.

Recent investments added tanks, labeling and sealing equipment, and infrastructure upgrades.

Extract Manufacturing

Extracts for formulations

The operation produces extracts used in the group cosmetics and wellness formulations.

This capability brings critical inputs closer to manufacturing, improves specification control and supports product development.
